**BUILDING DEPARTMENT
 FOR YOUR SAFETY**

INSPECTIONS: It is the responsibility of either the contractor or the homeowner to obtain all required trade inspections. Appointments are to be made not less than 24 hours prior to the inspection date and time requested.

All exposed construction materials, during the course of the project, will be brought up to applicable code requirements. Additional trade permits may need to be applied for once any existing violation is discovered.

A “rough inspection” is required before all permitted work is either closed over or covered over for all trade codes involved in the project. All inspection reports must be available to the inspectors on the job site. All work must be visible to the inspector.

A “final inspection” is required upon completion of all permitted work prior to the expiration of the permit.

Building Codes Enacted by the Village of Norridge

International Building Code 2003	International Energy Conservation Code 2003
National Electric Code 2005	International Property Maintenance Code 2003
Illinois Plumbing Code 2004	International Fire Code 2003
Illinois Accessibility Code 2003	International Urban-Wildland Code 2003
International Mechanical Code 2003	International Residential Code 2003
International Fuel Gas Code 2003	Village Amendments

By signing Building Department forms I certify the information on this application is correct and complete.
